## NIO FOR FOREIGN DECEPTION AND INTELLIGENCE ACTIVITIES

- As directed, support the DCI on matters related to the analysis of foreign intelligence activities which have implications for U.S. intelligence collection and analysis.
- Insure timely review of deception issues and develop appropriate Intelligence Community assessments.
- Within security limitations, facilitate Community-wide dissemination of deception/denial intelligence to promote integration into finished intelligence products as appropriate.
- At the direction of the DCI, commission and oversee assessments of damage suffered from compromises of classified U.S. and Allied information as they may impact on ongoing and future U.S. collection and analytical efforts.
- Oversee the maintenance of comprehensive deception/denial data base containing finished and raw intelligence information on means, methods and measures. This data base will be available to all appropriately cleared Community analysts.
- Oversee and encourage preparation of assessments of Soviet and other appropriate deception and denial organizations, policies, capabilities and activities.
- Chair an interagency committee to encourage and facilitate deception and denial analysis in conjunction with the Intelligence Producers Council.
- In consultation with representatives of the Community make recommendations to the DCI regarding collection priorities concerning foreign deception/denial means, methods and activities.
- Coordinate and foster analysis of Soviet foreign hostile intelligence activities such as active measures in support of the U.S. government's programs to counter such efforts. (Principally, the State chaired Active Measures Working Group.)
